

Washington State

Public Works Board

Recommended for 2016 Construction Loan Funding:

Town of La Conner

Caledonia Stormwater Pump Station Replacement

County: Skagit
Legislative District: 10th
PWB Loan Request: \$711,000
Other Funds: \$0
Total Project Cost: \$711,000
Serves:

- **Businesses:** 36
- **Community Facilities:** 2

The Caledonia pump currently discharges directly into the Swinomish Channel with very little to no water quality. The Town constructed water quality treatment ponds in 2001 and continued over the years constructing the infrastructure to connect the two together and now we are at the last phase to complete the project, upgrading the pump station.

Previously Funded PWTF Projects	Amount	Year	PWTF Program	Status
Washington Street Upgrade	\$39,600	1989	Construction	Complete
Morris St Reconstruction - Storm Drainage System	\$279,538	1998	Construction	Complete
	\$319,138
